Windows best auto clicker. Best auto clicker windows 10. Does windows 10 have auto clicker.

auto clicker is an automatic alternative click software. It was designed to constantly click on certain points automatically. Because there are many apps, games or software that required a certain amount of clicks for various purposes. And clicking on them for a long time is exhausting. But with GS auto clicker these certain amounts of clicks can be performed automatically. With GS auto clicker, you can set your click value and multiple clicks point as it wants. Clicking With this feature, you can run a single automatic clickpoint. From here you can choose which mouse button will be used as automatic click and choose a single or double click for time. After choosing the click button, you can set a maximum of 100000 clicks with 1 millisecond interval time. Click to start recording Here you can run multiple clicks at a time at different points. You can set the value of the click here as well. And you can set a click point where your auto click will run. With this feature, you can perform these tasks that require multiple clicks at a time at multiple points. Settings From here you can set your start button and automatic stop. In addition, you can hide when it is clicked automatically and set a notification to finish the automatic click amount you chose. In addition, you can set what will happen after completing the automatic click. Choose the option to click System Operating System
